

IPC-6810

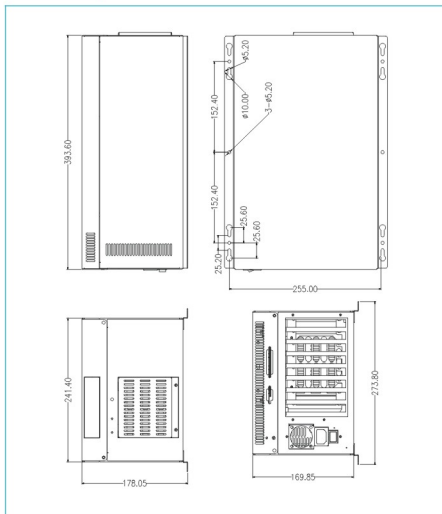

8-slot Wallmount Chassis

SPECIFICATIONS

- Provide 6 full-size card slots
- Provide one 3.5" FDD and one 3.5" HDD bays
- Support multiple types of 6-slot industrial backplane
- 160W industrial switching power supply equipped with cooling fan
- One ball-bearing fan for system cooling, dramatically reduce system noise
- Flexible bracket design

DIMENSION

INTRODUCTION

IPC-6810 chassis is especially designed for harsh industrial environment. This embedded wall mounted chassis is compact sized to 9.5" and well suits space-constrained applications. The installation bracket, heavy-duty steel enclosure, rugged and durable construction ensure the long-term stable operation of the system. With the high performance of switching power supply equipped with cooling fan and the great heat dissipation capability of the chassis, IPC-6810 is the ideal hardware platform for industrial automation system and modern financial devices.
