MiniAll is a mobile Internet machine

No matter whether you are in an airport, McDonald's or Starbucks, you can access Internet for desktop-class email, web browsing, maps, and searching. With MiniAll, you've just got MSN Messenger, Skype, YouTube, and more in your hand.

- Email
- Web browsing (visit YouTube? It's ok.)
- Instant messengers
- Online search
- More

MiniAll is a PDA

You can use MiniAll to manage your files. Create a TXT document, write something, copy and paste it in a new folder, and save or email it to your friend. View Word, Excel PowerPoint, PDF documents. No problem.

- Photo slide show: jpg/bmp/gif
- Support file format: txt / doc / xls / pdf / ppt / pps
- Word / Excel / PowerPoint / PDF

MiniAll is a super game console

MiniAll has game friendly button design which you will be crazy about. It supports Flash games, 8-bit .nes simulation games, and 3D games. You can download thousands of games from Internet and play them in MiniAll. MiniAll also has dozens of preinstalled games available, such as bubble bobble, Treasure Of Persia, Warfare Incorporated, and more.

Just be with it.

MiniAll is a MP3/Video player

As a portable media player, MiniAll distinguishes itself from others by supporting a wide range of video file formats and playing video directly without any format conversion. With its widescreen, you can watch video in horizontal or vertical mode.
