

103 series EC10 encoder
 103系列EC10編碼器

Features 特點

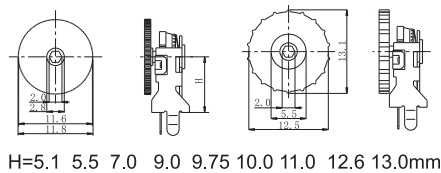

- 12 pulses 24 clicks ; small body as thin as 5.2mm.
 Height from the shaft center to the product top as low as 4.1mm
 - A long-life type that can operate more than 100,000 cycles
 - The operability has been improved by incorporating a good-feeling detent mechanism.
 - The unique through shaft shape contributes for simplifying SET design.
- 24次點擊輸出12信號，小巧的外形，總厚度5.2mm，軸心到軸頂高4.1mm；
 長壽命類型，可操作100,000次以上；通過整合手感良好的齒形機構而提高了可操作性；
 獨特的穿透型軸外形結構設計，使SET的設計簡單化。

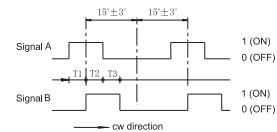

Shaft hole shape and dimension
 軸孔外形尺寸

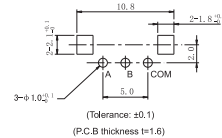

Plastic Wheel(90 teeth and 18 teeth)
 塑料轉輪(90齒和18齒)

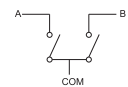

Phase Reference of Code Portion

Applications 用途

Various controls for personal computer input device, AV equipment, communication equipment, etc.
 适用于个人计算机输入装置，音视频设备，通信设备等。

貫通軸編碼器
