Features

- ★ The power inverter can be widely used with all types of electronic equipment with power consumption of less than 75W, such as notebooks, cellphones, razors, digital cameras, digital cameras, digital videos, TV, CD, DVD, game machines, cleaners, refrigerators, electric lights, chargers and various kinds of professional tools it is the very solution to using electricity in the automobile.
- ★ Soft start function to prolong the life of the product.
- ★ Product features a multiple protection of short, low voltage, overload, over current, high temperature and high voltage to ensure safety of equipment and automobile.
- ★ Please remove this product from the cigarette lighter socket when not in use.

Model No.	MR-801
Input voltage range	DC-11V-15V
Output voltage range	AC215V-230V
Max. Output power	100W
Continuous output power	75W
Over voltage shutdown	DC15V-10.5V
Cod.(No)	899001
