

Dear Customer,

Please allow me introduce my company as below:

Our company is one of the subsidiaries of Haier Group. We are specialized in doing EMS & CMS services and OEM & ODM service of almost all the electrical appliances and components ranging from components to assembly, from inner PCBA and motor manufacturing to outer plastic and metal parts manufacturing as well as from product and mold design to final assembly product manufacturing.

We have established ourselves as a reputable and reliable provider of Electronic Manufacturing Services (EMS), we undertake both PCBA and B-Build assembly for customers from various industries. We also undertake the design, development and manufacture of Power Electronics products based on our OEM customers' requirements or contract manufacture these products for our OEM customers.

Up to now, we have successfully making the following electrical appliances for the worldwide market.

The popcorn machine, the intelligent phone and the doorbell for Canada market;

The garbage processor for Japanese market;

The air purifier for Singapore market;

The printer and automatic coin-exchanging machine for Finland market;

The multi-functional telephone for domestic biggest telecom company.

Besides, we have developed by ourselves and put into mass production of oxygen concentrator and the wireless car early warner.

Our EMS service has been widely recognized by the customers from all over the world with our high quality and reasonable price along with the most important element of reducing the manufacturing cost.

We welcome the order for EMS services as well as well as OEM & ODM services of spare parts, the semi-finish assembled parts and the assembled parts and any other non-conventional white household appliances will be preferred.

Hope to have an opportunity to cooperate with each other.

Thanks.
