

AD-9200 Home Theater AV Amplifier

- Noblest blue display screen
- Dolby Digital and DTS double decoding function
- 3 coaxial and 1 optical digital inputs
- 24 bit/96 KHz digital process
- OSD (operational screen display)
- High power Hi-Fi playback function
- Search signal source automatically
- AM/FM digital frequency synchronistic tuner
- Intelligent air cooling system
- High quality digital Karaoke function
- Power on/off remote control
- Perfect protection function
- Microcomputer intelligence operating system
- Six setup for personal preference
- Digital Sound Processing (DSP)
- S/N: >90dB (A Weighted, Bypass)
- Distortion: <0.05%
- Power output: 100W x 5 (8 ohms) / 180W x 5 (4 ohms), RMS
- Frequency response: 10Hz-70KHz (-3dB)
- Channel separating degree: >50dB (1KHz)
- Maximum Voltage Gain: >40dB
- Video circuit:
 - a). Input impedance: 75 ohms
 - b). Output impedance: 75 ohms
 - c). Gain: 0dB
 - d). Band width: 20Hz-10MHz
- Voltage of power supply: 220V/50Hz
- Weight: 16 Kg
- Dimension: 530 X 505 X 265mm
