

How to use your Screen Protector

Clean the screen

Using the mat to clean surface of the screen for dust, greasy dirt and fingerprint

Peel the protection sticker

The protection sticker uses special low viscosity glue. Simply fold up the PVC in an opposite position and push it to peel the sticker.

Stick the protection sticker on the screen

Peel 1~2 cm of the protection sticker, point the sticker towards the screen, stick approximately 0.5 cm of the sticker on the screen first and then the rest.

Scrape the protection sticker

Scrape the sticker with scrape card, push it with fingers, and peel the PVC to stick the sticker completely on the screen.
