

KET201D2W / 201D2W-IP

- Dimension: (L)300mm×(W)220mm×(H) 73mm
- Packing: Metal box with inbuilt switcher power supply
- Power : DC7~35V, Inbuilt switch power supply
- Power consumption: ≤1W;
- Working environment: Temperature -20℃ ~ 60℃, Humidity: < 90%; Damp-proof treatment
- Communication mode: Inbuilt TCP/IP or RS485
- Users: 14538
- Records capacity: 32768
- Memory Remaining without external power: 1 year
- Door No. supported: Max 2
- Reader No. supported: Max 4, 2 reader for each door. All readers are connected to controller directly
- Parameters setting modes: Software
- Baud rate: 4800BPS--38400BPS

Specification

1. Anti-passback function: Global anti-passback inside each controller, Enable/ Disable option in software
2. Access mode: Card, Card + Password
3. Timezone feature: A. 4 working day and 1 non-working day.
B. 16 groups of weekly timezone
C. VIP User
D. Normally open timezone
E. Normally close timezone
F. Door sensor & Infrared timezone
4. Attendance Reports: A. Attendance daily report
B. Attendance total report
C. Daily attendance report
D. Abnormal attendance report
Etc.
