

**Solar Project Heat Collector / YYJ-E01
(Non-Pressurized System)**

Item No.	Solar Vacuum Tube			Absorber Area (m ²)	Daily Output (50-90 °C)	Loading Qty / sets		
	qty / pcs	size / mm	coating			20GP	40GP	40HQ
YYJ-E01-20	20	Φ 47 X 1500	Aluminium	1.87	120-150L	105	220	260
YYJ-E01-25	25	Φ 47 X 1500	Nitride	2.35	150-200L	105	220	260

Commodity Non-Pressurized Solar Collector

Material Outer chest: Galvanized Steel

Bracket: Galvanized Steel

Heat insulation layer: Imported polyurethane (Bayer, Germany)

Thickness Bracket: 30 X40mm

Heat insulation layer: 40mm

Working Temp. 99 celsius degree

Working Press. 0.3MPa (3 bars)

Coloration shining black

Accessories plastic bottom support,silicic gasket

Quality Certificate ISO9001:2000, CE

Warranty 5 years for full system / 15 years for vacuum tube

MOQ negotiation

Lead time within 15 days for full container

Payment terms Telegraphic Transfer (T/T), Letter of Credit (L/C)

Remarks
