

KD-795 TALKING WRIST-TYPE FULLY AUTOMATIC DIGITAL BLOOD PRESSURE MONITOR

Specification:

Display system: Extra-large LCD with digital display system

Measuring method: automatic air inflation and measurement, 60 times memory with time and date displaying, IHB (irregular heart beat) detecting and blood pressure classification indicator.

Clear voice of result after each measurement.

Cuff size: 300mm×70mm

Machine size: 87mm×70mm×29mm

Weight: 133g (excluding battery)

Measuring accuracy: Within ± 3 mmHg (0.5kPa)

Blood pressure measuring range: 0mmHg—300mmHg (2.7kPa—40kPa)

Heart pulse rate range: 30—180/min

Power source: 2×AAA size batteries

Classification: Internal powered Equipment Type B

Automatic power off: To be automatically cut off after 1 minutes of nonuse to save energy

Battery life: Approx. 1 month with normal usage

Environmental temperature for using: 5~40℃

Environmental temperature for storage: -20~55℃

Environmental humidity for using: <85%RH

Environmental humidity for storage: <95%RH

Environmental pressure: atmosphere pressure

Form of package:

One machine in one PVC box, fill in a color box, and every ten boxes in one export carton.

Size of package:

Size of color box: 95(length) x 89.5(width) x 85(height) mm

Export carton: 480(length) x 120(width) x 215(height) mm

G.W.: 2.85kgs
