

Parameters

Supply Voltage: DC4.2V

Built-in Lithium battery: DC3.7V, 1900mA

Work Current: 450mA

Work Temp: -10°C~ +50°C

Voltage Output: DC12V, 1000mA

Standard Capability: 128M SD card

Video Input Impedance: 75Ω Typ

Video Input Level: 1Vp—p Typ

Video Polarity: Cathode

Video Output Impedance: 75ΩTyp

Video Output Level_Vp—p Typ

Video Polarity: Cathode

File Format: Photo with JPEG

Video with AVI

Photo Pixel: 640x480

Video Pixel: 320x240

Record Time: Every recording time □□?0s

SD Memory Card: (optional accessory)

Internal Memory: 2G

Numbers of Photo: about 28,800pcs

Record Segment: about 4,380

Packing Accessory

one DV900P; one DC4.2V adapter; one shoot control wire; one detect signal output control wire; one audio/video wire; one combined wire (audio + video + power); one (128M~2G)SD card(pay extra fee).

Package

Product Spec: L: 110mm; W: 80mm; T: 23mm; G.W.: about 600g

Packaging: Box Spec: 620*315*340(mm);
