

Wheel Balancer

[CE]**Model: CB530**

Technical data:

New software ensures working of the machine stable and precise with a streamline. Appearance “Noble, elegant and extraordinary”.

Many balancing ways to suit different wheel structures.

Many optional wheel-orientation ways.

Self-calibrating program to ensure a long service life.

Measurement units conversion function (gram ~ ounce).

Display of trouble diagnosis to make maintenance more convenient.

Protective hood (optional).

Specification:

Model	CB-530
Power supply/Motor power	110V/220V 250W
Max. wheel weight	65kg
Rim width	1.5'' ~ 20'' (38 ~ 508mm)
Rim diameter	10'' ~ 24'' (254 ~ 610mm)
Imbalance resolution	± 1g
Cycle time	6 ~ 9s
Noise	<70Db
N.W./G.W.	110kg/145kg
