

Personal Phone Assistant

- In your office, dormitory or at home, when telephone rings, who is wanted on the phone? Personal phone assistant (hereinafter called the assistant) will be your solution.
- When incoming call arrives, the assistant will automatically reply: “please make your choice, dial 1 for George, 2 for Dima, 3 for Sam, 4 for Robert”, this announcement can be recorded by hostors themselves, and each person may choose his or her favorable ring tone to make difference, pick up call if only he or she is wanted;
- When called person is absent for a few seconds, his or her per-recorded voice info will tell the calling party to leave message, in 8Mbyte flash configuration, each of the 4 private voice mail boxes may support 10 messages, and each message may last 12 seconds; each mail box can be password protected;
- If one of the hostor is about to have a trip, his or her special voice info can be recorded (max. 3 seconds each), the calls to him will be automatically redirected to his or her special voice info and ask for simple message leaving, at this situation, no ring tone will be heard and he or she may retrieve and delete recorded voice mail from any phone outside. LED will be lighted up when there is valid message in relevant voice mail box;
- The assistant may record and display up to 40 group of 16 digital calling number, and incoming numbers, 1 one time alarm, 2 permanent alarm settings with personalized recorded alarm voice, like “wake up baby”, or “time to get up, darling”, etc.
- No power adopter is required, batteries used inside the assistant is only used for recording retrieving and owner’s voice recording, without battaries, the assistant may still work for sending announcement, message and voice recording. Normal alkaline battery would be acceptable, low barratry indicator will be shown when replacement is needed.
