Handheld Wireless 2.4GHz audio and video receiver with large 2.5 Inch full colour display for use with up to four 2.4GHz wireless cameras. This wireless security product will record video directly to wither the 64MB internal memory or to an SD/MMC card of up to 2GBs. Transfer of the AVI format recorded video to PC is incredibly easy via USB connection , and with both AV OUT and AV IN security possibilities are enormous. A perfect item for Ebay security powersellers, or someone looking to beef up their own security at home or at work.

Note: This product is **only** a wireless camera receiver. Other products on Chinavasion have this receiver bundled with different cameras. Please note the pictures to see how many cameras and what type of cameras are bundled with each purchase.
