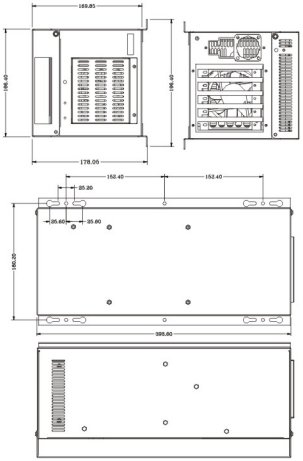
IPC-6806(B) | 6-slot Wallmount Chassis

SPECIFICATIONS

- Support 6-slot ISA/PCI/PICMG passive backplane
- Provide 6 full-size card slots
- Provide 1×3.5" FDD and 1×3.5" HDD bays
- A ball bearing cooling fan with air filter to eliminate noise
- 160W industrial switching power supply with fan
- The anti-vibration bar of the motherboard ensures the system stability during transportation and vibration

DIMENSION



INTRODUCTION

IPC-6806(B) chassis is specially designed with the consideration of system stability. It comes with a 6-slot industrial passive backplane and 160W industrial switching power supply, supports one 3.5" FDD and one 3.5" HDD bays, and provides installation bracket, easy to install.

With ultra compact size, good heat dissipation and high performance industrial power supply with fan, IPC-6806(B) is an ideal solution for digital control, industrial field and modern financial devices.
