

200W LEDs power our industrial lights

120-200W LED work light

Searching for bright prospects that last? We're the natural choice. Unveiled at a rate of three to four new products each year, our developments have earned 60 design patents. Our LED model can draw 200 watts, so our lights can stay lit on one to five LEDs – the competition requires at least 10. Customers in over 53 countries and regions already enjoy our items. No MOQ restrictions apply - act today.
